COMBINATION RANGE COMPACT UNITS

The Small Jet Vac range provides a small compact machine for companies seeking to expand their range of services

Most people can drive the vehicle without a Heavy Goods Licence

There are several types of this vehicle from a simple lightweight 800 gallon Sludge Tanker to Jetter Only Vehicles to the medium Volume 750 gallon Combination Jet Vac Tanker

The 7.5 Tonne Range can also be equipped with a lightweight 4" Boom for Gully Cleaning work

The Jet Vac Vehicle is equipped with Manual Handwheel catches with Hydraulic Door Opening and Hydraulic Tipping of the Tank. The Reel Pivots around the rear of the vehicle and is fitted with 100 metres of 19mm jetting hose with Operating Station at rear. The Rear Valves are both 4" Saunders with stack pipe on inlet with hose couplings to suit.

Hose Bins Option are open or closed bins either side
Extra Storage Option is available giving a through storage area behind the cab and is fully lockable

All Controls are situated at the rear once the PTO is engaged in the cab. Combination Units are fitted with interconnecting valve to enable use of the rear tank to carry water.

Vacuum Pump used is a Moro AC3 capable of 247 CFM with forced air cooling and builtin Oil Storage Tank with changeover valve and is fitted with Oil Catchment tank, Silencer and is hydraulically driven.

Jetting Pump fitted is Pratisoli KF 30 Jetting pump capable of 106 LPM @ 150 BAR and is mechanically driven through a split shaft PTO system.
